**Reviewer Instructions:**

Use the column labeled *Reviewer Comments* to provide feedback to the institution.

- If the Common Standard **is aligned**, feedback is not required. Use the drop-down menu in the column labeled *Aligned* to select **Yes**.
- If the standard **is not aligned**, please provide specific feedback, and identify the part(s) of the standard not aligned. Then, use the drop-down menu in the column labeled *Aligned* to select **More Information Needed**.

**Institution Instructions:**

Use the column labeled *Institution Resubmission Link* to link directly to the institution's response to reviewer feedback. The link must take the reviewer to the exact location of the response on the website and the response must be easily identifiable. If the Common Standard is aligned, no additional information or link is necessary.

**General Comments:**

- Although narrative was provided, key documentation or evidence to support the narrative was not. Please review your narrative and provide links to supportive evidence and/or documentation.
- In several instances, the response provided does not directly address the Common Standard element or only includes a brief description, review feedback provided for each standard.
- There are several instances where links direct to SharePoint which has restricted access, check links to ensure access is provided to reviewers.

Full-time faculty members often meet this requirement in their service as fieldwork supervisors. Others meet this requirement by serving in various volunteer or consulting capacities in local schools. Most adjunct faculty members also work as teachers or administrators in California public schools.</p>

Accordingly, it is imperative that faculty carefully examine ways their syllabi, assignments, language, and classroom culture may inadvertently raise barriers to students' success. <b>Faculty must proactively create positive classroom cultures where all students feel valued, respected, and safe.</b> The Faculty Diversity Committee developed a Syllabus Audit Tool for faculty to examine their syllabi, teaching practices, and classroom environment. The goal is to support faculty in implementing the ideals of diversity and inclusivity in their classroom. 4. Continuous Improvement	<p>4.1: The response does not describe how the proposed program will be incorporated into the education unit's existing continuous improvement process that identifies program and unit effectiveness. Provide supporting documentation.</p> <p><b>4.1 Second Review:</b> Aligned.</p> <p>4.2: The response does not describe how the institution will oversee the effectiveness of the program in relation to course of study, fieldwork, and support services for candidates. Provide any supporting documentation.</p> <p><b>4.2 Second Review:</b> Aligned.</p>	<p>4.1: The Teacher Education department (where the BILA will be housed) engages in regular reflection on the course of study offered including examining alignment of scope and sequence of courses, key assessments delivered across terms and how well-aligned they are to TPEs for our credentials, fieldwork and clinical practice opportunities for students (alignment and support, including during COVID-19, with adjustments) and support for candidates. We have also engaged in intra and inter-term dialogues around course and program cohesion, comparing assignments across programs to ensure candidate preparation for student teaching and gradual development of candidate competencies related to the TPEs. This has happened at program meetings looking at a variety of data sources. We have also engaged in program wide examination of course key assessments by term and Instructional Modalities Surveys. We also did an analysis of CTC program completer data. Across all data sources, we identified areas of strength and areas of growth, discussed these and used a data protocol in order to reflect and identify areas of individual and program change. (see <a href="#">attached</a> for data sources) These happened monthly at teacher education program meetings (beginning in September -- September, October, November, December, February).</p> <p>4.2: <a href="#">Graphic Depiction of Assessment System</a></p>	Yes

<p>5. Program Impact</p>	<p>5.1: The response does not provide how the unit will include the proposed program in its evaluation that its programs are having a positive impact on candidate learning and competence and on teaching and learning in the schools that serve CA's students. Provide any supporting documentation.</p> <p><b>5.1 Second Review:</b> Aligned.</p>	<p>5.1: To measure program impact, we rely on the CTC completer <a href="#">surveys</a> which consistently show that our program either exceeds or is closely on pace with program satisfaction and aligns with our state requirements.</p> <p>The LaFetra College of Education has sponsored an annual Family Learning Conference since 2005. This free event invites hundreds of families from our region to participate in educational activities with an objective of supporting TK-12 student success through intentional home-to-school connections. At our last on campus version of this event in <a href="#">2019</a>, just over 800 learners and parents attended. In <a href="#">2021</a> we hosted the event virtually with 90 families participating. Our 2022 event is scheduled for May. (Sample flyers and even photos attached.)</p> <p>While all families with school aged children are welcome, we specifically promote the event to partner districts who serve high need populations. Pomona Unified, a neighboring district with 100% minority enrollment is our largest partner. The event is promoted to all Pomona students, and interested families are also offered free transportation from the district to our university campus. Because many of the families who attend the conference are Spanish speakers, the event is offered in both English and Spanish. This provides an excellent platform for students in our bilingual education pathway to put their coursework into action as they deliver sessions in Spanish. Translators are also used to increase access for all attendees.</p> <p>We also utilize the written feedback from our fieldwork coordinators to measure preparation.</p>	<p>Yes</p>
